Uncle Sam Says

Does a $1,000 in savings seem as elusive as the rainbow's pot of gold to you? Then, think about these facts: By joining the Payroll Savings Plan where you work and allotting just $2.50 a week for United States Savings Bonds, you will accumulate $1,440.34 in 10 years. Millions of my nieces and nephews are learning from experience that they can own an even greater amount of Savings Bonds through this partial payment plan. In the event you are self-employed, automatic bond buying is available to you through the Bond-A-Month Plan at your bank.

SEA FIGHTERS CHANGE ARMOR - - NOT HEARTS

From the conception of the Navy Department a century and a half ago American warships have vastly changed from wooden frigates of privateers to steel-hulled battleships, cruisers, and carriers, but they will to fight in defense of America has undergone no transition. The veteran USS Constitution, shown in upper photo in battle with the British ship GUERRIERE in 1812, rests in retirement in Boston, confident to repose the security of her country today in such craft as the USS Alaska (lower). American version of the German hooked battleship. Construction began on the Alaska 19 days after the Pearl Harbor attack, yet she had ample time to participate in many strikes against the Japanese in World War II. (Official Navy Photograph)
